EXPERIENCE

Wells Fargo

Dallas, TX

Vice President / Lead Scrum Master – Gateway Enablement Team (Product/Delivery Lead)

2021 – Present

- Designed and built **Dependency Detective**, an award-winning agentic & semantic AI product that autonomously maps cross-team dependencies from Jira and roadmap data before and during PI planning; drove a 40% increase in sprint predictability and was selected for enterprise rollout to all developers.
- Defined and delivered the product vision for a self-service API platform, launching an API marketplace and producer/consumer journeys that cut API creation lead time from 6+ days to under 2 hours and 4x-ed API reuse.
- Translated business and security needs into a Generative AI threat-assessment capability that automated risk surfacing and scoring and saved multimillion dollars annually.
- Built an AI-driven API inventory from CI/CD metadata, repo intelligence, logs, and telemetry to automate compliance reporting and ownership mapping across tens of thousands of services.
- Embedded OWASP-aligned policy controls and risk scoring into CI/CD developer workflows, achieving audit-ready delivery without slowing velocity, while owning intake, governance, and sequencing across 10 global teams on Apigee Hybrid.

Health Care Service Corporation (HCSC)

Chicago, IL

Agile Project Manager / Scrum Master

2016 – 2021

- Led delivery of a \$70M enterprise modernization, mobilizing 7 global Agile teams to migrate core platforms to private cloud and automate claims processing.
- Reduced release risk and improved throughput by operationalizing scaled Agile (PI planning, Scrum of Scrums, dependency mapping); drove roadmap decisions through an executive portfolio insights engine (Jira/Tableau).

Health Care Service Corporation (HCSC)

Chicago, IL

Scrum Master

2011 – 2016

- Drove enterprise adoption of an analytics and reporting platform across 20+ business units, replacing manual Excel reporting with governed Jira/Tableau dashboards.
- Enforced HIPAA/HITRUST/SOX controls across Teradata/Oracle/SQL Server/Hadoop while leading two Agile teams in SAFe (2-week sprints).

JPMorgan Chase, Bank of America, and Mary Kay

Dallas, TX

Software Consultant (sequential contract engagements)

2003 – 2006

- Earlier consulting roles focused on Java, Perl, DB2, and financial system support.

SKILLS & TOOLS

Program & Product Delivery: Cross-functional program leadership, product roadmap & vision, intake governance & prioritization, stakeholder alignment, dependency/risk management, go-to-green recovery

Cloud/API Platforms & DevOps: API platforms & gateway (Apigee Hybrid), API governance & marketplace, CI/CD (Jenkins, Azure DevOps, UrbanCode, Ansible, Bitbucket/Git), hybrid cloud (VMware, RHEL), Azure, AWS, GCP

Data & Tooling: Jira, Jira Align, Confluence, Tableau, portfolio dashboards, executive reporting

AI & Security/GRC: Agentic AI & Generative AI, AI-driven inventory, threat assessment, OWASP, audit readiness, HIPAA/HITRUST/SOX, governance, risk, and compliance (GRC)

CERTIFICATIONS

Professional Scrum Master (PSM I) | Professional Agile Leadership (PAL I) | ICAgile (ICP-ACC, ICP-IDO, ICP-ATF) | SAFe 5 POPM | Microsoft Azure Fundamentals (AZ-900) | Caltech Generative AI Workshop | PMI-CPMAI
